C.C. Elections: will take place in October. Returning Officer to be appointed by early September.

AOB: Gardens have been judged and Awards will take place on September 10th in Kilmallie Hall. This will replace the usual meeting. Toilets in Kilmallie Hall are now open to the public.

Guest Speaker:

Andy Rogers, with the help of slides, brought us up to date with progress on BSW's move to the former Arjo Wiggins site.

The site has been cleared, save for the office block and it will go once the other parts of the site are up and running.

The Secondary Processing stage is all about bringing in kilns, a treatment plant, weighbridge and oil fired boiler and equipment is coming from all over the UK as well as Germany. It is hoped to have this equipment in use by the end of 2008/early 2009.

Planning applications have been made for next stage.

Stewart Mitchell of ROK informed the audience of how ROK came into being.

There are 112 people presently employed by BSW with the likelihood of more jobs being available, while ROK has some 60-70 workers.

Andy and Stewart were thanked for their interesting presentation and will pay a return visit to the C.C. in early 2009.
